

VISITOR SAFETY INDUCTION

Occupational Health & Safety Management System (OHSMS)

EMERGENCY & EVACUATION PROTOCOL

Emergency Alert (3 Continuous Whistle Sounds):

- Remain calm. Save files and turn off computers or equipment in use. Disconnect electronic devices and stop all work immediately.

Evacuation Signal (Constant Whistle Sound):

- Evacuate immediately; leave all work activities behind.
- Follow the exact instructions of the evacuation team without debate. Do NOT run or scream. Walk calmly and orderly.
- Do NOT return to fetch personal belongings. Do NOT stop near exit doors. Proceed directly to the assigned Assembly Point.
- Remain at the Assembly Point until authorized to return.

INCIDENTS & PERSONAL PROTECTIVE EQUIPMENT (PPE)

Work Accidents & Incidents: Any incident or accident suffered on site must be reported immediately to the OHS (SST) Department for investigation (under Res. 1401/2007) and implementation of corrective measures.

Personal Protective Equipment (PPE): All visitors must wear required PPE based on area hazard recommendations or as assigned by Libero Cobre. Visitors are responsible for proper use and maintenance (Safety boots, helmet, safety glasses, gloves, ear protection, rain gear, mask).
